## ***Introduction***

The Public Policy Research Institute (PPRI), in conjunction with the Texas Department of State Health Services (DSHS) conducted the twelfth statewide survey of drug and alcohol use among Texas elementary and secondary students in the Spring of 2010. Originally implemented in 1988 as a component of a larger survey assessing substance use among the state's general population, the school survey has since become an ongoing, independent project. District surveys are offered every year with a statewide survey conducted every two years. The 2010 effort provides follow-up data reflecting changes over the past twenty two years in grades four through twelve.

The *Texas School Survey* project has two primary objectives. First, it serves to inform state and local policy-makers about the extent and nature of the substance use problem in Texas schools. Second, the statewide survey provides a standard of comparison for districts conducting local assessments of drug and alcohol use.

The purpose of this document is to describe the methodology used to administer the 2010 *Texas School Survey of Substance Use*. Following a brief introduction to the survey instrument itself, attention is then focused on sample selection and survey administration procedures. Next, methods for data processing and quality control are described and the report concludes with a review of standard error estimates.

## **Survey Instrument**

Two versions of the 2010 *Texas School Survey of Substance Use* were developed and administered. The first was a six-page questionnaire designed for students in grades seven through twelve. The second was a simplified three-page instrument created for students in grades four through six. The elementary survey differs from the secondary survey in that it has simplified language and some complex questions were omitted. Elementary students were asked about only four types of substances including tobacco (cigarettes, snuff, and chewing tobacco), alcohol (beer, wine, wine coolers, and liquor), inhalants, and marijuana. Secondary students were asked about the same substances, as well as a broader range of illicit drugs including powdered cocaine, crack, hallucinogens, uppers, downers, steroids, ecstasy, Rohypnol, DXM, and heroin. Other sets of questions on both the elementary and secondary instruments were designed to assess behavioral correlates of substance use and students' perceptions of support available to help them cope with substance-related problems.

The questionnaire was in a format that could be scanned optically, similar to that used for standardized testing. It was designed for anonymous self-administration by students with the aid of a staff member to pass out the survey, read a common set of instructions, monitor the class during survey administration, and collect the instruments after they are completed. The survey instruments are included in Appendix A.

## **Survey Content**

The *Texas School Survey of Substance Use* content was updated in 2010. Both the secondary and elementary instruments include a false drug designed to identify exaggerated responses. In previous versions of the surveys, this drug was called "Cosma" or "Shimeron". The current versions list this drug as "Oxaril".

Revisions were made to the elementary and secondary survey instruments in 2010. For the elementary survey, revisions included the addition of "magic markers" and "computer dusting sprays" as a category in the question related to lifetime inhalant use. For the secondary survey, revisions included: (1) removal of question related to where students had received information about alcohol and drugs out of school, (2) removal of question related to the purchase of Texas lottery tickets, and (3) addition of questions related to specific inhalant use. Revisions were made to improve response quality and to capture data related to new use trends. Measures were taken to ensure compatibility with previous survey data.

## **Survey Sample**

The sample of students for the 2010 survey was designed to be a stratified, weighted, random sample of all public school students between the fourth and twelfth grades in the state. In order to make administration practical, students were selected using a multi-stage stratified sampling procedure. This involved sampling districts, schools within districts, and classrooms within districts. All students in a sampled classroom were asked to participate in the survey.

### **Selection of Districts**

The primary analytic cluster was the school district since the approval needed to administer the survey had to be obtained at that level. First, the districts were stratified according to how urban the counties were in which they were located. Stratification along a variable deemed to be highly correlated with the characteristics of interest is a means of increasing the precision of estimates in complex sampling designs. The strata were formed as follows. First, 28 border counties formed a separate border stratum. Of the remaining counties, the most urban stratum consisted of counties with metropolitan populations of 1,000,000 or more; the next stratum containing those between 250,000 and 1,000,000; and the third stratum was made up of those metropolitan areas with less than 250,000. The remainder of the state constituted a final major stratum.

The strata were further subdivided by relative size of the districts, so that each stratum had a combination of large and small districts. Due to their large size relative to other districts, a total of nine districts were sampled with a probability of one. This means that these districts are always selected as part of the sample. They formed two of the substrata. The strata are listed in Table 1.

Districts were selected for the state sample from the 11 strata, above, in the following manner. The 14 districts that formed strata 1-A and 2-A were included with probability one. From each of the remaining strata, excluding the border stratum, a simple random sample of districts was selected. The districts in the border stratum were also selected with probability one in that all districts constituting that stratum were invited to participate. The districts that were selected in this manner are listed in Table 2.

If a non-probability one district refused to participate, it was replaced with another district selected at random from within the stratum.

**TABLE 1. Distribution of Selected Districts by Urban Class Size**

<b>Stratum</b>	<b>Group</b>
1-A	Large Urban Counties- 55,000 < enrollment (probability one districts)
1-B	Large Urban Counties- 20,000 < enrollment < 55,000
1-C	Large Urban Counties- 10,000 < enrollment <20,000
1-D	Large Urban Counties- enrollment <10,000
2-A	Medium Urban Counties- 20,000 < enrollment (probability one districts)
2-B	Medium Urban Counties- enrollment <20,000
3-A	Small Urban Counties- 10,000 < enrollment
3-B	Small Urban Counties- enrollment <10,000
4-A	Non-Urban Counties- 5,000 < enrollment
4-B	Non-Urban Counties- enrollment <5,000
5-A	Border (28 counties)

## **Soliciting District Participation**

Obtaining cooperation from those districts that were randomly selected for the state sample when the selected district did not plan to do a local survey was sometimes a problem. Yet, it was critical to get data from as many of the originally selected districts as possible. Some state sample districts that were initially hesitant were persuaded to cooperate by the use of incentives. The various incentives used included waiving participation and sampling fees, offering to discount the fees for participating the following year, paying all shipping costs, and discounting campus level analyses fees.

In order to allow further analysis of substance use among students living on the Texas-Mexico border, school districts along the border were strongly encouraged to participate in the 2010 Texas School Survey. The survey was offered free of charge to border districts, and data was collected from a broadly defined 28-county area. The border sample was designed to collect data from approximately 500,000 students. One-hundred and eight school districts from 28 counties were invited to participate in the 2010 survey. Each border district surveyed was included in the state survey sample.

Seventy-eight of the original 237 selected districts participated in the study. Most districts declined due to the lack of time and resources involved in survey administration. The selected districts included 2.99 million elementary and secondary students and those that were included in the final sample included 914, 898 students. A total of 31 percent of the students in the original sample were in the final sampling frame.

Seventy-five of the seventy-eight districts sampled submitted both elementary and secondary surveys. Three districts -Maud, South Texas, and Conroe - did not administer surveys to elementary students.

## **Allocation of Surveys among Districts**

The state survey sample was designed to collect data from a minimum sample of about 5,555 students per grade, however, many districts chose to survey more than the minimum number of students specified in the state sampling plan. Some extremely small districts received somewhat more than a strict proportional allocation because, while the data was technically only needed from one or two students per grade, the survey was administered to the entire classroom. Similarly, in a few extremely large (urban) districts, fewer students were need for accuracy than would result from a true proportional allocation. All surveys submitted from a cooperating district were included in the sample. Accordingly, in the final analyses, the data were weighted to provide an accurate proportional allocation.

Had districts provided data for the minimum number of sample students, the sample would have included approximately 50,000 students; it actually included 57,328 elementary students and 96,271 secondary students (See Table 3). This significantly improves the accuracy of estimates.

**TABLE 3. Number of Surveys Included in State Sample**

	<b>Total Non-Blank Surveys</b>	<b>Usable Surveys</b>	<b>Number rejected</b>	<b>Percent rejected</b>
<b>Secondary</b>	101,595	96,271	5,324	5.24%
<b>Elementary</b>	58,338	57,328	1,010	1.73%
<b>Total</b>	159,933	153,599	6,334	3.96%

\*Surveys were rejected because the responses indicated exaggeration or the survey could not be matched to a sampled school and grade.

### **Allocation of Surveys among Classrooms and Campuses**

Once the number of surveys to be administered in each district was established, the next step was to determine the number of classrooms to be surveyed per grade. This was achieved by dividing the number of questionnaires per grade (ascertained for each district using proportional population calculations) by the average number of students per class---20 for grades four through six, 22 for grades seven through twelve. The result of this computation indicated the total number of classes to be surveyed. These classes were selected so that as many different campuses as possible were in the final sample. Ideally, the classrooms surveyed were evenly distributed across all campuses in the district. If there were more campuses containing a given grade than classrooms needed, then a simple random selection procedure was used to determine which campuses would be sampled. In general, once a campus was selected, all relevant grades at that campus were surveyed. Therefore, campus selection was not independent between grades.

**TABLE 4. Survey Distribution by Grade**

	<b>Grade</b>	<b>Number of Usable Surveys</b>	<b>Percentage</b>
<b>Elementary</b>	Grade 4	18,328	32%
	Grade 5	19,225	34%
	Grade 6	19,775	35%
	Total	57,328	100%
<b>Secondary</b>	Grade 7	18,097	19%
	Grade 8	15,939	17%
	Grade 9	18,304	19%
	Grade 10	15,777	16%
	Grade 11	14,893	16%
	Grade 12	13,261	14%
	Total	96,271	100%

### **Selection of Classrooms within Campuses**

After the total number of classrooms to be surveyed in each grade at each campus was determined, it was necessary to identify specific classrooms. This selection procedure was performed by campus personnel based on a set of guidelines provided by PPRI (illustrated in Appendix C). Members of campus staff were asked to make a list by grade (according to

teacher's last name or some other convenient method) of all classes held during a selected class period. They were then instructed to use a random number table to select the exact classes to survey in each grade.

### **Other Sampling Considerations**

Some school districts sampled all students in all or some of the grades. In these districts, the methodology outlined above did not apply to the grades sampled at 100 percent.

## ***Survey Administration Procedures***

Districts selected for inclusion in the state sample were notified about the project via letter and were sent a descriptive brochure. State sample districts that planned to administer a local drug and alcohol survey had virtually no procedural changes resulting from their involvement in the statewide project. In those districts that surveyed grades four through twelve, sufficient data was collected from all relevant campuses to meet the data collection needs of the statewide survey. These districts benefited from their inclusion in the state survey project because they were not charged for the surveys that became part of the state database. The larger number of surveys from these districts was weighted down so that their contribution to the final sample was in correct proportion.

In those instances where state sample districts were collecting local data for an incomplete combination of grades, or where they were not conducting local surveys at all, the campus and classroom selection procedures described above were applied. Arrangements for giving the survey were established on an individual basis with these districts. Since those not doing local surveys did not stand to gain directly from having the survey administered in their district, an effort was made to be as accommodating as possible. PPRI was able to arrange survey administration in the selected schools and classes by school personnel.

Starting with the 2010 Texas School Survey, each participating school district had the ability to administer either an online version of the survey via a secure website, or the traditional paper-pencil administration. School districts selected which method of administration they preferred when signing up for the survey. Out of the seventy eight participating districts, only one school district (Bryan ISD) administered the online version of the survey.

Relevant personnel in the selected districts and campuses were provided with complete instructions and materials necessary to administer the survey (see Appendix D). Classrooms were selected randomly by PPRI based on information from a computer printout from the district or Campus Information Form. Teachers in selected classrooms were given a script to read so that all students would receive a standardized set of instructions. Teachers were also asked to complete a Classroom Identification Form that provided data on the number of students that should have taken the survey but were absent, and the number of students that were present but failed to complete the survey. This information was useful for computing error estimates.

Survey administration procedures for the online survey followed the same protocols as the paper-pencil administration, except for minor modifications. Instead of receiving paper copies of the survey instrument, students in sampled classrooms were provided with unique, randomly generated six digit alpha-numeric codes, referred to as survey tokens. These survey tokens provided access to the online survey via a secure website. Each survey token could only be utilized once. In addition, to ensure only sampled classrooms completed the online survey, all unused and used survey tokens were collected by the classroom teachers when surveys were completed. Lastly, PPRI limited access to the online survey during the district's scheduled survey administration period.

The envelopes containing either the survey tokens or survey instruments from all participating classrooms were collected and returned to PPRI.

## **Data Entry and Analyses**

As noted earlier, the format of the survey instruments enabled them to be scanned optically. Upon receipt at PPRI, the instruments were logged in, coded and scanned by staff or trained personnel.

### **Exaggerated Responses**

Because the *Texas School Survey* data is based entirely upon respondents' description of their own behavior, it is inevitable that some students will under- or over-report their use of drugs or alcohol, and to the extent possible PPRI attempted to identify and eliminate data from those respondents. Two checks were incorporated into the data analysis program to identify exaggerators. First, both elementary and secondary students were asked about their use of a false drug call "Oxaril". Data from students claiming to have used this substance were considered suspect and dropped from the analyses.

Second, checks were run to identify any students claiming extremely high levels of drug and alcohol use. Unbelievable high substance use for elementary students was defined as the use of five or more substances, 11 or more times in the past school year or over a lifetime. Secondary students were defined as exaggerators based on the following criteria: (1) students reported that they had five or more drinks of two or more beverages every day; (2) students reported that they had consumed three or more alcoholic beverages every day; or (3) students reported that they used four or more drugs (other than cigarettes, alcohol, or steroids) eleven or more times in the past month. As in those cases where students reported using "Oxaril", data from students reporting exaggerated use were also dropped from the analyses.

### **Unreported Grade Levels**

When students failed to report their grade level, it was impossible to determine unequivocally in which grade these students' data should be analyzed. When a grade level was missing, an estimate of the grade was made based on the students' age and the data were retained. Table 4 identifies the range of students' ages and the corresponding grade levels that were assigned. If both grade and age were missing, the data were dropped from the analyses.

**TABLE 4. Age-Based Grade Assignments.**

<b>Age</b>	<b>Elementary Level</b>	<b>Age</b>	<b>Secondary Level</b>
9	4 <sup>th</sup> Grade	12	7 <sup>th</sup> Grade
10	5 <sup>th</sup> Grade	13	8 <sup>th</sup> Grade
11	6 <sup>th</sup> Grade	14	9 <sup>th</sup> Grade
		15	10 <sup>th</sup> Grade
		16	11 <sup>th</sup> Grade
		17 or older	12 <sup>th</sup> Grade

## ***Quality Control Measures***

To ensure the quality of the statewide survey data, a number of internal checks were put into place to guide survey processing. First, a quality control analyst oversaw the implementation of all pre- and post-analysis quality control procedures. As the following paragraphs describe, many aspects of PPRI's plan for quality control were embedded in automated procedures. However, there is no replacement for human oversight. The quality control analyst monitored and tracked the processing of each district's surveys from the initial mailing through the production of the final state report. Responsibilities included ensuring that surveys were properly coded and scanned and checking for anomalies in the final table of results.

In addition to the safeguards resulting from careful project oversight, there were also a number of procedural checks against error. For example, there was a possibility, however remote, that after the bindings of a set of survey instruments were cut, the instruments could be dropped or otherwise placed out of order. If this occurred, it is conceivable that some pages of data could have been read into the incorrect computer record. To resolve this problem, each instrument used in the 2010 survey was printed with a five-digit "litho-code" number. With this coding process, every page of a given instrument is printed with the same scannable number, but a unique number is assigned to every instrument. By using the litho-code, when each page of an instrument is scanned it will automatically be read into the correct computer record. In this way, even if the pages from different instruments were shuffled together and read randomly, all data derived from the same instrument would automatically be read to the same data record.

Litho-coding also enabled PPRI to confirm that data from every survey instrument read was associated with the correct district. Survey instruments were mailed to participating districts in consecutive order. By recording the beginning and ending instrument numbers going to each district, PPRI was able to check the litho-codes scanned for a given district. In this way, any stacks of data that could potentially have been inadvertently mislabeled could be easily identified.

Programming checks were also incorporated into the data analysis program by cross-analysis. That is, the same data was run in several different ways using existing programs, and program outputs were then compared for consistency. Confidence is high that these quality control features will ensure valid and reliable survey findings.

## ***Weights, Standard Errors, and Confidence Intervals***

Weights were applied to each case based on the strata, district, and campus. The weights were applied so that the aggregation of students in each campus, district, and strata reflected their proportions in the actual district, campus, and strata populations. The formulae used to determine these weights are presented in Appendix E.

Standard errors and confidence intervals were estimated for each grade and the aggregation. The formulae used are presented in Appendix F. The table of standard errors and confidence intervals for past year and lifetime use of substances by grades are presented in Appendix G.

## **Conclusion**

The *Texas School Survey* has become a valuable policy tool for both state and local educators and policy-makers. The survey, performed every two years, provides timely and relevant information about current drug and alcohol use patterns among young people enrolled in Texas' public schools. Furthermore, longitudinal analysis can provide insight into changes in drug and alcohol prevalence over time. As was noted in the introduction, every state survey culminates in a Texas Department of State Health Services publication providing an overview of findings to date. Data is also available for independent analysis by policy-makers and academicians.

**Appendix A**  
**Survey Instruments**

# TEXAS SCHOOL SURVEY OF SUBSTANCE USE

## ELEMENTARY SURVEY INSTRUMENT

### 2010 VERSION

#### INTRODUCTION

Before you answer any questions in this survey, you need to know the following:

- This is a survey that measures tobacco, drug and alcohol use and other information relating to tobacco, alcohol, inhalant and drug use;
- This survey is being given to as many as 300,000 students in the state of Texas;
- There is no way for anyone to know how you respond to the questions; and
- You can skip any question or not take the survey at all if you do not want to. There is no penalty if you skip questions or leave the survey blank.

If you feel you need to talk with someone about problems with tobacco, inhalants, alcohol or drugs, counselors from the Worker's Assistant Program of Texas are available by calling this toll free number: 1-877-9-NO-DRUG (1-877-966-3784).

This research study has been reviewed and approved by the Institutional Review Board — Human Subjects in Research, Texas A&M University. For research-related questions regarding subjects' rights, the Institutional Review Board may be contacted at (979) 458-4067 or [irb@tamuj.edu](mailto:irb@tamuj.edu).

#### DIRECTIONS

- DO NOT write your name anywhere on this booklet.
- Use a NUMBER 2 PENCIL only.
- Fill in only ONE BUBBLE for each part of a question.
- Be sure to read each question carefully.

#### EXAMPLE QUESTION

IN THE PAST WEEK, on how many DAYS have you used:

	Never heard of it	Not used it	1-2 days	3-4 days	5-7 days
a. Cigarettes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
b. Snuff or Chewing Tobacco	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Beer	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

CORRECT MARK

INCORRECT MARKS

STANTON EM-98595-10/854321

500055

PLEASE DO NOT WRITE IN THIS AREA

1. Are you a:

Boy  Girl

2. What grade are you in?

4  5  6

3. Do you live with both of your parents?

Yes  No

4. How old are you?

8 or younger  9  10  11  12  13 or older

5. Are you:

White  African American  Mexican American  Asian American  Native American  Other

6. What grades do you usually get?  
(ONLY CHOOSE ONE)

Mostly A's  Mostly B's  Mostly C's  Mostly D's  Mostly F's

7. Have you lived in this town for more than 3 years?

Yes  No  Don't Know

8. Did either of your parents graduate from college?

Yes  No  Don't Know

9. During the current school year, do you qualify for a free or reduced price school lunch?

Yes  No  Don't Know

10. Do one or both of your parents usually attend school-sponsored open houses or PTA meetings?

Yes  No

Below is a list of things some people sniff to get high. These are called inhalants.

11. Have you EVER sniffed any of the following inhalants to get high?  
(DARKEN ONE BUBBLE FOR EACH DRUG)

	Never Used	Used
a. Gasoline to get high	<input type="radio"/>	<input type="radio"/>
b. Paint thinner to get high	<input type="radio"/>	<input type="radio"/>
c. Glue to get high	<input type="radio"/>	<input type="radio"/>
d. Whiteout, correction fluid, or magic markers to get high	<input type="radio"/>	<input type="radio"/>
e. Spray paint to get high	<input type="radio"/>	<input type="radio"/>
f. Computer dusting sprays to get high	<input type="radio"/>	<input type="radio"/>
g. Other inhalants to get high	<input type="radio"/>	<input type="radio"/>

The following questions ask about drugs people use.

12. How many times have you used any of these drugs?  
(DARKEN ONE BUBBLE FOR EACH DRUG)

	Never heard of it	Never used it	1-2 times	3-10 times	11 or more times
a. Cigarettes?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Snuff or Chewing Tobacco?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Beer?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Wine Coolers (hard lemonade, hard sodas, etc.)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. Wine?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f. Liquor (whiskey, vodka, tequila, etc.)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
g. Ozaril?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
h. Inhalants (whiteout, spray paint, glue, gas, etc.) to get high?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
i. Marijuana (pct)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

13. SINCE SCHOOL BEGAN IN THE FALL, how many times have you used:

(DARKEN ONE BUBBLE FOR EACH DRUG)

	Times used since school began in the Fall.				
	Never heard of it	Not used it	1-2 times	3-10 times	11 or more times
a. Cigarettes?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Snuff or Chewing Tobacco?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Beer?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Wine Coolers (hard lemonade, hard sodas, etc.)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. Wine?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f. Liquor (whiskey, vodka, tequila, etc.)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
g. Oxaril?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
h. Inhalants (whiteout, spray paint, glue, gas, etc.) to get high?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
i. Marijuana (pot)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

15. About how many of your close friends your age use:

(DARKEN ONE BUBBLE FOR EACH DRUG)

	Never heard of it	None	Some	Most
a. Cigarettes?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Snuff or Chewing Tobacco?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Beer?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Wine Coolers (hard lemonade, hard sodas, etc.)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. Wine?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f. Liquor (whiskey, vodka, tequila etc.)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
g. Oxaril?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
h. Inhalants (whiteout, spray paint, glue, gas, etc.) to get high?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
i. Marijuana (pot)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

14. How old were you when you first used:

(DARKEN ONE BUBBLE FOR EACH DRUG)

	Never heard of it	Never used it	7 or younger	8 years	9 years	10 years	11 years	12 years or older
a. Cigarettes?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Snuff or Chewing Tobacco?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Beer?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Wine Coolers (hard lemonade, hard sodas, etc.)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. Wine?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f. Liquor (whiskey, vodka, tequila, etc.)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
g. Oxaril?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
h. Inhalants (whiteout, spray paint, glue, gas, etc.) to get high?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
i. Marijuana (pot)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

16. Has anyone ever tried to give you:

(DARKEN ONE BUBBLE FOR EACH DRUG)

	Never heard of it	Yes	No
a. Cigarettes?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Snuff or Chewing Tobacco?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Beer?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Wine Coolers (hard lemonade, hard sodas, etc.)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. Wine?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f. Liquor (whiskey, vodka, tequila, etc.)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
g. Oxaril?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
h. Inhalants (whiteout, spray paint, glue, gas, etc.) to get high?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
i. Marijuana (pot)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

# TEXAS SCHOOL SURVEY OF SUBSTANCE USE

## SECONDARY SURVEY INSTRUMENT

### 2010 VERSION

#### INTRODUCTION

Before answering the survey questions in this booklet, please read the following:

- > I am aware that the survey questions I am answering are designed to measure drug and alcohol use in my school district and the state of Texas, that I will be asked questions about student attitudes and behaviors that relate to substance abuse issues, and that over 300,000 students all over Texas will be taking this survey;
- > I know that I do not have to take this survey and that I can skip any question that I do not choose to answer for any reason without any consequences;
- > I know that there is no way for anyone to find out which survey that I answered, that the numbers on the questionnaire books are used only to identify which pages go together after the booklets are cut and cannot be used to tell who answered the questions; and
- > I am voluntarily participating in the *Texas School Survey of Drug and Alcohol Use*.

If you feel you need to talk with someone about problems with tobacco, inhalants, alcohol or drugs, counselors from the Worker's Assistant Program of Texas are available by calling this toll free number: 1-877-9-NO-DRUG (1-877-966-3784).

This research study has been reviewed and approved by the Institutional Review Board -- Human Subjects in Research, Texas A&M University. For research-related questions regarding subjects' rights, the Institutional Review Board may be contacted at (979) 459-4067 or irb@tamu.edu.

#### DIRECTIONS

- DO NOT write your name anywhere on this booklet.
- Use a NUMBER 2 PENCIL only.
- Fill in only ONE BUBBLE for each part of a question.
- Be sure to read each question carefully.

FOR OFFICE USE ONLY									
0	0	0	0	0	0

13. How safe do you feel when you are:  
(DARKEN ONE BUBBLE FOR EACH LINE: a-c.)

	Very Safe	Somewhat Safe	Not Very Safe	Not Safe At All	Don't Know
a. in your home	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. out in your neighborhood	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. at school	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

14. How many of your FRIENDS would you say:  
(DARKEN ONE BUBBLE FOR EACH LINE: a-e.)

	None	A Few	Some	Most	All
a. Feel close to their parents?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Sometimes carry weapons like a knife or gun?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Care about making good grades?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Belong to a gang or are interested in becoming a gang member?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. Wish they could drop out of school?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

15. Do one or both of your parents usually attend school-sponsored open houses or PTA meetings?  Yes  No

Below is a list of things some people sniff to get high. They are called INHALANTS.

16. How recently, if ever, have you sniffed, huffed, or inhaled the following INHALANTS for "kicks" or to get "high":  
(DARKEN ONE BUBBLE FOR EACH LINE: a-h.)

	Never heard of/Never used it	Used at least once in the Past Month	Used at least once Since School Began in the Fall	Used at least once In Your Lifetime
a. Spray paint to get high?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Whiteout, correction fluid, magic markers to get high?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Computer dusting sprays to get high?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Helium, butane, propane, whippets (nitrous oxide), refrigerants/Freon gas to get high?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. Glue to get high?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f. Toluene/tolly, paint thinner, other solvents to get high?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
g. Gasoline, octane booster, carburetor cleaner to get high?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
h. Other aerosols/sprays (deodorant spray, Pam, hair spray, room spray, etc.) to get high?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

17. How recently, if ever, have you used the following TOBACCO, ALCOHOL, and INHALANT products even one time:  
(DARKEN ONE BUBBLE FOR EACH LINE: a-g.)

	Never heard of/ Never used it	Used at least once in the Past Month	Used at least once Since School Began in the Fall	Used at least once In Your Lifetime
a. Cigarettes?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Smokeless Tobacco?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Beer?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Wine Coolers (hard lemonade, hard sodas, etc.)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. Wine?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f. Liquor (vodka, rum, whiskey, etc.)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
g. Inhalants (whiteout, spray paint, glue, gas, etc.) to get high?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

18. How recently, if ever, have you used the following DRUGS even one time:  
(DARKEN ONE BUBBLE FOR EACH LINE: a-k.)

	Never heard of/ Never used it	Used at least once in the Past Month	Used at least once Since School Began in the Fall	Used at least once In Your Lifetime
a. Marijuana?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Cocaine (not crack)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Crack?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Oxaril?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. Hallucinogens (LSD, PCP, Mushrooms, etc.)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f. Uppers?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
g. Downers?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
h. Rohypnol (roches, roofies, etc.)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
i. Steroids?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
j. Ecstasy?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
k. Heroin (black tar, cheese, chiva, brown heroin)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

r. Heroin (black tar, cheese, chiva, brown heroin)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

25. IN THE PAST 30 DAYS, on how many days have you had 5 or more drinks of alcohol AT ONE TIME?

a. Alcohol	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------	-----------------------

26. How often do you get alcoholic beverages from the following sources?  
(DARKEN ONE BUBBLE FOR EACH LINE: a-e.)

	Do Not Drink	Never	Seldom	Most of the time	Always
a. At home	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. From friends	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. From a store	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. At parties	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. Other source	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

24. When you drink alcoholic beverages, how many drinks do you usually have AT ONE TIME, on average:  
(DARKEN ONE BUBBLE FOR EACH LINE: a-d.)

	Never drink this beverage	12 or more drinks	9 - 11 drinks	5 - 8 drinks	3 - 4 drinks	2 drinks	1 drink	Less than 1 drink
a. Beer	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Wine Coolers (hard lemonade, hard sodas, etc.)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Wine	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Liquor (vodka, rum, whiskey, etc.)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

27. How often do you use marijuana in the following ways?  
(DARKEN ONE BUBBLE FOR EACH LINE: a-e.)

a. Joints	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. Blunts	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. Bong or water pipes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Pipes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. Other ways	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

28.	How recently, if ever, have you used methamphetamine (speed, crystal meth, ice, or crank) even one time?	Never heard of/Never used it	Used at least once in the Past Month	Used at least once Since School Began in the Fall	Used at least once In Your Lifetime
a.	Methamphetamine (speed, crystal meth, ice, or crank)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
29.	How recently, if ever, have you taken the following PRESCRIPTION DRUGS only for the experience or feeling it caused even one time: (DARKEN ONE BUBBLE FOR EACH LINE: a-e.)	Never heard of/Never used it	Used at least once in the Past Month	Used at least once Since School Began in the Fall	Used at least once In Your Lifetime
a.	Codeine cough syrup (Lean, Nods, AC/DC)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b.	OxyContin, Percodan, or Percocet?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c.	Vicodin, Lortab, or Lorcet?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d.	Valium or Diazepam?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e.	Xanax or Alprazolam?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
30.	How recently, if ever, have you taken the following OVER-THE-COUNTER DRUGS only for the experience or feeling it caused even one time:	Never heard of/Never used it	Used at least once in the Past Month	Used at least once Since School Began in the Fall	Used at least once in Your Lifetime
a.	DXM, Triple C's, Skittles, or Coricidin?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
31.	How dangerous do you think it is for kids your age to use: (DARKEN ONE BUBBLE FOR EACH LINE: a-j.)				
a.	Tobacco?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b.	Alcohol?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c.	Inhalants (whiteout, spray paint, glue, gas, etc.)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d.	Marijuana?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e.	Cocaine (not crack)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f.	Crack?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
g.	Ecstasy?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
h.	Steroids?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
i.	Heroin (black tar, cheese, chiva, brown heroin)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
j.	Methamphetamine?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
				Very Dangerous	Somewhat Dangerous
				Not Very Dangerous	Not Dangerous At All
					Don't Know
32.	SINCE SCHOOL BEGAN IN THE FALL, on how many DAYS have you... (DARKEN ONE BUBBLE FOR EACH LINE: a-g.)	None	1-3 days	4-9 days	10+ days
a.	missed a whole day of school because you "skipped" or "cut"?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b.	missed a whole day of school because you were ill?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c.	missed a whole day of school for some other reason?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d.	been sent by a teacher to someone like the Principal, Dean, or Guidance Counselor because of your conduct or attitude?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e.	had someone from your home be called to school because of your conduct or attitude?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

g.	gotten into trouble with your teachers because of your drug use?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
33.	DURING THE PAST 12 MONTHS, how many times (if any) have you... (DARKEN ONE BUBBLE FOR EACH LINE: a-h.)	None	1-3 times	4-9 times	10+ times
a.	gotten into difficulties of any kind with your friends because of your drinking?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b.	driven a car when you've had a good bit to drink?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c.	been criticized by someone you were dating because of drinking?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d.	gotten into trouble with the police because of drinking?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e.	gotten into difficulties of any kind with your friends because of your drug use?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f.	driven a car when you've felt high from drugs?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
g.	been criticized by someone you were dating because of drug use?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
h.	gotten into trouble with the police because of drug use?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

34. SINCE SCHOOL BEGAN IN THE FALL, on how many DAYS (if any) have you attended at least one class while "high," "drunk" or "stoned" on. . . (DARKEN ONE BUBBLE FOR EACH LINE: a-d.)

	None	1-3 days	4-9 days	10+ days
a. beer, wine coolers, wine, or hard liquor?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. marijuana?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. inhalants?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. some other drug(s)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

35. Alcohol or other drugs are sometimes used at teenage parties. Thinking of the parties you attended this school year. . . (DARKEN ONE BUBBLE FOR EACH LINE: a-b.)

	Never	Seldom	Half the time	Most of the time	Always	Don't Know	Didn't attend any parties
a. how often was alcohol used?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. how often were marijuana and/or other drugs used?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

36. SINCE SCHOOL BEGAN IN THE FALL, have you sought help, other than from family or friends, for problems in any way connected with your use (if any) of alcohol, marijuana, or other drugs? Yes  No

37. If you had a drug or alcohol problem and needed help, who would you go to? (DARKEN ONE BUBBLE FOR EACH LINE: a-h.)

	Yes	No
a. A counselor or program in school?	<input type="radio"/>	<input type="radio"/>
b. Another adult in school (such as a nurse or teacher)?	<input type="radio"/>	<input type="radio"/>
c. A counselor or program outside of school?	<input type="radio"/>	<input type="radio"/>
d. Your parents?	<input type="radio"/>	<input type="radio"/>
e. A medical doctor?	<input type="radio"/>	<input type="radio"/>
f. Your friends?	<input type="radio"/>	<input type="radio"/>
g. Another adult (such as relative, clergyman, or other family friend)?	<input type="radio"/>	<input type="radio"/>
h. I wouldn't go to anyone.	<input type="radio"/>	<input type="radio"/>

38. SINCE SCHOOL BEGAN IN THE FALL, have you gotten any information on drugs or alcohol from the following SCHOOL sources? (DARKEN ONE BUBBLE FOR EACH LINE: a-h.)

	Yes	No
a. A school health class?	<input type="radio"/>	<input type="radio"/>
b. An assembly program at school?	<input type="radio"/>	<input type="radio"/>
c. A school guidance counselor?	<input type="radio"/>	<input type="radio"/>
d. A science class?	<input type="radio"/>	<input type="radio"/>
e. A social study class?	<input type="radio"/>	<input type="radio"/>
f. A student group or club meeting at school?	<input type="radio"/>	<input type="radio"/>
g. An invited school guest?	<input type="radio"/>	<input type="radio"/>
h. Another source at school?	<input type="radio"/>	<input type="radio"/>

39. How do your parents feel about kids your age. . . (DARKEN ONE BUBBLE FOR EACH LINE: a-c.)

	Strongly Disapprove	Mildly Disapprove	Neither Approve nor Disapprove	Mildly Approve	Strongly Approve	Don't Know
a. using tobacco?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. drinking alcohol?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. using marijuana?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

40. IN THE PAST SCHOOL YEAR, have you been tested for drug use by someone at school?  Yes  No

**Appendix C**  
**Classroom Selection Guidelines**

*Texas School Survey of Substance Use*  
**Teacher Lists for Random Sample Selection**

**For elementary**

- List all the teachers' names that teach in grades 4, 5 and 6;
- List the grade level that each teaches; and
- List the number of students per class.

**For secondary**

- Choose *either* a class period in which all students are present *or* a subject all students must be enrolled;
- List all teachers for that class period or that subject; and
- List the number of students per grade level in each of those classes.

**Note:**

If a subject has been chosen rather than a particular class period, and where a single teacher teaches multiple classes, a classroom identifier of some sort (e.g., the period) should be included in the column under the heading of “period”.

PPRI will randomly pick entire classrooms until we reach the target numbers per grade level for the sample. Then, we'll send you the survey materials along with a Master List of those classes randomly selected to be surveyed.

***Helpful Hint:***

Electronic submissions (i.e., as an attachment to an email) are encouraged for speedy turnaround, as the random sample selection is a computer program.

***Remember:***

Sixth graders are considered elementary students for the purposes of this survey.

**Appendix D**  
**School Survey Administration**  
District Coordinator's Responsibilities  
Campus Coordinators' Responsibilities  
Teachers' Guide

*Texas School Survey of Drug and Alcohol Abuse  
District Coordinator's Responsibilities- Paper-Pencil Administration*

**1. Distribution of the Survey Administration Guide**

The *Survey Administration Guide* is designed to instruct the individuals who will administer the *Texas School Survey* at each campus. Each individual involved in the survey administration should receive a copy. All survey packets have a copy of the Survey Administration Guide enclosed. We have provided additional copies of this document in this mailing.

The guides should be sent to the campuses in the time to be distributed one week prior to the scheduled survey administration date. This will allow time for everyone involved to read through the information and resolve any questions.

**2. Distribution of Survey Instruments and Envelopes**

Enclosed is a set of envelopes. There should be approximately one envelope per participating classroom. These envelopes will be used to seal the completed instruments after survey administration (see Campus Coordinators' Responsibilities).

At least one week prior to the scheduled survey date, District Coordinators should forward the appropriate envelopes to each campus. Each campus will need as many envelopes as there are classes participating.

**3. Packaging the Completed Surveys for Delivery to PPRI**

Completed survey instruments will be sealed in envelopes and collected from each classroom. As the District Survey Coordinator, you should clearly designate to each Campus Coordinator where the surveys should be sent from there. All completed surveys should be collected at a central location. Completed surveys should remain in the sealed envelopes, and the envelopes from each campus should be grouped together and **CLEARLY LABELED** with the campus name. **BLANK SURVEYS SHOULD BE** returned to PPRI along with the classroom envelopes.

For shipping completed survey instruments to PPRI, District Coordinators should keep the original boxes in which the blank surveys and envelopes were shipped in. This will allow PPRI to send shipping labels to the district, without District Coordinators having to weigh each box. The survey materials should be boxed, and the boxes should be labeled sequentially (i.e., "one of three, two of three," etc.). Materials should then be returned to PPRI in a single mailing. Ship to:

**Texas School Survey  
PPRI / Texas A&M University  
317 Dulie Bell Bldg.  
College Station, TX 77843-4476**

*Texas School Survey of Drug and Alcohol Abuse  
District Coordinator's Responsibilities- Online Administration*

**1. Distribution of the Survey Administration Guide**

The *Survey Administration Guide* enclosed in this mailing list is designed to instruct the individuals who will administer the *Texas School Survey* at each campus. Each individual involved in the survey administration should receive a copy.

The guides should be sent to the campuses in the time to be distributed one week prior to the scheduled survey administration date. This will allow time for everyone involved to read through the information and resolve any questions.

**2. Distribution of Online Survey Tokens and Envelopes**

Enclosed is a set of envelopes. There should be approximately one envelope per classroom. Secondary (Grades 7–12) envelopes will contain 30 online survey tokens and Elementary (Grades 4-6) envelopes will contain 25 online survey tokens. These envelopes will be used to seal the online survey tokens after survey administration (see Campus Coordinators' Responsibilities).

At least one week prior to the scheduled survey date, District Coordinators should forward the appropriate envelopes to each campus.

**3. Packaging the Survey Materials for Delivery to PPRI**

The online survey tokens will be sealed in envelopes and collected from each classroom. As the District Survey Coordinator, you should clearly designate to each Campus Coordinator where the classroom envelopes should be sent from there. All classroom envelopes should be collected at a central location. The classroom envelopes from each campus should be grouped together and **CLEARLY LABELED** with the campus name. **UNUSED ONLINE SURVEY TOKENS SHOULD BE** returned to PPRI along with the classroom envelopes.

For shipping classroom envelopes to PPRI, District Coordinators should keep the original boxes in which the survey materials and envelopes were shipped in. This will allow PPRI to send shipping labels to the district, without District Coordinators having to weigh each box. The survey materials should be boxed, and the boxes should be labeled sequentially (i.e., "one of three, two of three," etc.). Materials should then be returned to PPRI in a single mailing. Ship to:

**Texas School Survey  
PPRI / Texas A&M University  
317 Dulie Bell Bldg.  
College Station, TX 77843-4476**

*Texas School Survey of Drug and Alcohol Use  
Campus Coordinators' Responsibilities- Paper-Pencil Administration*

**1. Distribution of the Guide to Survey Administration**

Each Campus Coordinator will receive copies of the Survey Administration Guide and Procedure from the District Coordinator. The Guide should be distributed to all survey administrators approximately one week prior to the scheduled administration date so that everyone will have adequate time to read through the information and resolve any questions.

**2. Distribution of Survey Instruments to Classes**

The District Coordinator will send to each participating campus the appropriate number of survey instruments in a large envelope. Please do **not** seal the envelopes.

On the day the survey is to be given, envelopes filled with the survey instruments should be distributed to each survey administrator. The individuals administering the survey should have reviewed the *Survey Administration Guide and Procedure* (described above) prior to this point and should already be aware of their responsibilities.

**3. Collecting Completed Survey Instruments**

After the survey has been administered in each class, teachers will be instructed to seal the completed survey forms in the envelopes. Unused blank forms should be kept together **OUTSIDE THE ENVELOPE**. It is recommended that teachers not leave the room with the sealed envelopes. Rather, someone who did not participate in the actual survey administration should be sent around to collect the envelopes.

Once envelopes have been collected from every classroom, they should be forwarded to the location designated by the District Survey Coordinator where they will be collected and returned to PPRI in a **single mailing**.

***Thank you very much for your assistance with this important research project.***

*Texas School Survey of Drug and Alcohol Use  
Campus Coordinators' Responsibilities- Online Administration*

**1. Distribution of the Guide to Survey Administration**

Each Campus Coordinator will receive copies of the Survey Administration Guide and Procedure from the District Coordinator. The Guide should be distributed to all survey administrators approximately one week prior to the scheduled administration date so that everyone will have adequate time to read through the information and resolve any questions.

**2. Distribution of Survey Instruments to Classes**

The District Coordinator will send to each participating campus the appropriate number of online survey tokens in a large envelope. When the materials arrive, Campus Coordinators should label each envelope to indicate which class it is along with **the campus name**. Do **not** seal the envelopes.

On the day the survey is to be given, envelopes filled with the online survey tokens should be distributed to each survey administrator. The individuals administering the survey should have reviewed the *Survey Administration Guide and Procedure* (described above) prior to this point and should already be aware of their responsibilities.

**3. Collecting Completed Survey Instruments**

After the survey has been administered in each class, teachers will be instructed to seal all used and unused survey tokens in the envelopes. It is recommended that teachers not leave the room with the sealed envelopes. Rather, someone who did not participate in the actual survey administration should be sent around to collect the envelopes.

Once envelopes have been collected from every classroom, they should be forwarded to the location designated by the District Survey Coordinator where they will be collected and returned to PPRI in a **single mailing**.

***Thank you very much for your assistance with this important research project.***

*Texas School Survey of Drug and Alcohol Use*  
*Survey Administration Guide- Paper-Pencil Administration*

Your school district has elected to participate in the *Texas School Survey of Drug and Alcohol Use*. The survey is sponsored and designed by the Texas Department of State Health Services (DSHS) and is facilitated by the Public Policy Research Institute (PPRI) at Texas A&M University. The district needs your assistance in administering the survey. PPRI has prepared this Survey Administration Guide to provide information and instructions for conducting the survey project.

- Your classroom envelope should contain blank surveys and an attached Classroom Identification form to be filled out during survey administration. You will find this Classroom Identification Form attached as a label to your classroom envelope. It is very important that you write the **campus name** and **number of students enrolled** on this label.
- Please read all instructions carefully before administering the survey. It is important that these procedures are followed so that administration of the survey is uniform throughout the district.
- Your attitude towards this survey is extremely important. If students sense the importance of this information, they will take the survey more seriously. Please stress to the students that their responses are **entirely anonymous**.
- In addition, your physical position in the classroom may influence the way students answer questions. While students are taking the survey, do not walk around the room. Please sit or stand in a part of the room away from students.
- Try to keep students as quiet as possible throughout survey administration. If students are allowed to talk about the contents of the survey or their own experiences, peer influence could cause students to either inflate or under-report their own drug and alcohol habits.
- The survey should take approximately 30-45 minutes to administer.
- To maintain student confidentiality, **do not view completed survey instruments**.
- Students must use a #2 pencil. Be prepared to provide pencils to students who may not have one. Surveys completed in pen or marker will not be processed.

*Thank you very much for your assistance with this important research project.*

*Texas School Survey of Drug and Alcohol Use  
Survey Administration Procedure- Paper-Pencil Administration*

1.) Before handing out surveys, please tell students the following:

“This survey is for the Public Policy Research Institute at Texas A&M University. Survey results will be used for evaluating and planning substance abuse programs for our school district. No student is required to participate in this survey. This survey will ask questions about your experiences with drugs and alcohol. Do not turn the pages or begin answering questions until we have gone over the survey instructions.”

2.) Make sure all students have a #2 pencil to complete the survey. Hand out the surveys and please tell students the following:

“I cannot answer questions about specific substances or tell you what questions mean. If you are not familiar with a substance listed on the survey, mark the category “Never heard of it.”

3.) Go over the instructions on the attached survey form, using either the elementary or secondary form as appropriate. Be sure to read aloud the Introduction, Directions, and Example Question.

4.) Please emphasize the following points to the students:

\*\*This survey is completely voluntary.

\*\*No one will know how individual students answer questions.

\*\*If you do not feel comfortable answering a question or feel you cannot answer a question honestly, leave it blank.

\*\*A drink means a can or bottle of beer or wine cooler, a 4 ounce glass of wine, a shot of liquor, or a mixed drink.

5.) If students refuse to take the survey, have them work quietly at their seat or send them to an area designated by your campus coordinator.

6.) Collect all completed surveys and place in envelope. Please do not view completed surveys instruments. **Fill out the attached Classroom Identification Form.** PLEASE DO NOT PUT UNUSED SURVEYS IN THE ENVELOPE. Seal the envelope.

7.) Return classroom envelope and unused surveys to your campus coordinator.

*Thank you very much for your assistance with this important research project.*

*Texas School Survey of Drug and Alcohol Use  
Survey Administration Guide- Online Administration*

Your school district has elected to participate in the *Texas School Survey of Drug and Alcohol Use*. The survey is sponsored and designed by the Texas Department of State Health Services (DSHS) and is facilitated by the Public Policy Research Institute (PPRI) at Texas A&M University. The district needs your assistance in administering the survey. PPRI has prepared this Survey Administration Guide to provide information and instructions for conducting the survey project.

- Your classroom envelope should contain a small piece of paper for each student with a number, which is an online survey token. The survey tokens are unique numbers that each student will need to log in to the online survey.
- You will also find a label on the front of your classroom envelope titled ‘Classroom Identification form’. This form will need to be filled out during survey administration. It is very important that you write the **campus name** and **number of students enrolled** on this label.
- Please read all instructions carefully before administering the survey. It is important that these procedures are followed so that administration of the survey is uniform throughout the district.
- Your attitude towards this survey is extremely important. If students sense the importance of this information, they will take the survey more seriously. Please stress to the students that their responses are **entirely anonymous**. The tokens are completely random and there is no way to know which student responded to a particular survey.
- In addition, your physical position in the classroom may influence the way students answer questions. While students are taking the survey, do not walk around the room. Please sit or stand in a part of the room away from students.
- Try to keep students as quiet as possible throughout survey administration. If students are allowed to talk about the contents of the survey or their own experiences, peer influence could cause students to either inflate or under-report their own drug and alcohol habits.
- The survey should take approximately 30-45 minutes to administer.

*Thank you very much for your assistance with this important research project.*

### *Survey Administration Procedure- Online Administration*

1.) Have all participating students enter the following address into their web browser:

For grades 4-6: <http://txss.tamu.edu/4-6/>

For grades 7-12: <http://txss.tamu.edu/7-12/>

**(After this step is complete, students need to click on the button on the center of the web page to be directed to the main survey page)**

2.) Before handing out the online survey tokens, please tell students the following:

“This survey is for the Public Policy Research Institute at Texas A&M University. Survey results will be used for evaluating and planning substance abuse programs for our school district. No student is required to participate in this survey. Please do not begin answering questions until we have gone over the survey instructions.”

3.) Hand out the online survey tokens and please tell students the following:

- This is a survey that measures tobacco, drug, and alcohol use and other information relating to tobacco, alcohol, inhalant, and drug use;
- This survey is being given to as many as 300,000 students in the state of Texas;
- There is no way for anyone to know how you respond to the questions;
- You can skip any questions or not take the survey at all if you do not want to. There is no penalty if you skip questions or leave the survey blank;
- On the survey, a drink means a can or bottle of beer or wine cooler, a 4 ounce glass of wine, a shot of liquor, or a mixed drink;
- I cannot answer questions about specific substances or tell you what questions mean;
- If you are not familiar with a substance listed, mark the category “Never heard of it.”
- **At the end of the survey, please make sure you click the ‘Submit’ button**

If you feel you need to talk with someone about problems with tobacco, inhalants, alcohol, or drugs, counselors from the Worker's Assistant Program of Texas are available by calling this toll free number: 1-877-9-NO-DRUG (1-877-966-3784).

This study has been reviewed and approved by the Institutional Review Board - Human Subjects in Research, Texas A&M University. For research-related questions regarding subjects' rights, the Institutional Review Board may be contacted at (979) 458-4067 or [irb@tamu.edu](mailto:irb@tamu.edu).

6.) Tell the students to type the number on their paper in the token box and click ‘ENTER’. The students will then need to read the instructions and click ‘NEXT’ to proceed to survey questions.

7.) If students refuse to take the survey, have them work quietly at their seat or send them to an area designated by your campus coordinator.

8.) Collect all papers with the survey tokens and place in envelope. **Please fill out the attached Classroom Identification Form.** Seal the envelope and return it to your campus coordinator.

**Appendix E**  
**Computation of Sample Weights**

## Weighting the Texas School Survey of Substance Abuse

### District Level Weights

Within the selected districts, students were sampled via a simple random sample of classrooms (i.e., a sample in which all classrooms in the district had an equal chance of getting in) picked directly from the district. Every student in the sampled classrooms was asked to participate in the survey.

A weight  $w_{ilk}$  is assigned to each sampled classroom  $k$ , in grade  $l$ , in district  $i$ :

$$w_{ilk} = \frac{N_{il}}{n_{il}} \quad (1)$$

where,

$N_{il}$  = total no. of classrooms in grade  $l$ , in district  $i$

$n_{il}$  = no. of classrooms sampled in grade  $l$ , in district  $i$

Since every student in the sampled classrooms was included in the sample, each student's probability of selection is equal to his/her classroom's probability of selection. Thus, each sampled student in these districts is assigned his/her classroom weight. Therefore the weight  $w_{ilr}$  of the  $r^{\text{th}}$  sampled student in classroom  $k$  is,

$$w_{ilr} = w_{ilk} \quad (2)$$

Remark: In (1), if the true  $N_{il}$  is not known for a particular district, estimate it with,

$$\hat{N}_{il} = \frac{M_{il}}{\hat{c}_{il}} \quad (3)$$

where,  $\hat{c}_{il} = m_{il} / n_{il}$  and

$M_{il}$  = total no. of students in grade  $l$ , in district  $i$

$m_{il}$  = no. of students sampled in grade  $l$ , in district  $i$

Notice that in this case, the weights in (1) reduce to,  $w_{ilk} = M_{il} / m_{il}$ .

### District Level Estimates

The total no. of students in grade  $l$ , in district  $i$ , giving a positive response to a question is estimated as

$$\hat{Y}_{il} = \sum_{r=1}^{m_{il}} w_{ilr} y_{ilr} \quad (4)$$

where

$$y_{ilr} = \begin{cases} 1 & \text{if the } r^{\text{th}} \text{ student's response is positive} \\ 0 & \text{otherwise} \end{cases},$$

and  $w_{ilr}$  is as defined in (2).

The proportion of students in grade  $l$ , in district  $i$ , giving a positive response to a question is estimated as,

$$\hat{Y}_{il} = \frac{\hat{Y}_{il}}{M_{il}}$$

### **Stratum Level Weights**

The districts were selected from strata that were formed on the basis of two factors, namely, how urban the districts were and the levels of enrollment. That is, once the districts were grouped by the degree to which they were urban, strata were formed by collecting together districts of similar size within these urban classes. Next, a simple random sample of districts was chosen from each stratum. A few large districts were selected to the sample with probability one. These districts were grouped into two strata based on the relative sizes of the districts.

Stratum level weights are assigned to the sampled students as follows. The weight  $w_{hirl}^s$

of the  $r^{\text{th}}$  sampled student, from grade  $l$ , in district  $i$  in stratum  $h$  is,

$$w_{hirl}^s = \frac{1}{p_{hi}} w_{ilr} \quad (5)$$

where

$$p_{hi} = \begin{cases} 1 & \text{if district } i \text{ was sampled with probability 1} \\ \phi_{hi} & \text{otherwise} \end{cases}, \quad (6)$$

and within grade  $l$ , for each district  $i$  in stratum  $h$ ,  $w_{ilr}$  is as defined in (4), and  $\phi_{hi} = n_h / N_h$  with

$$\begin{aligned} n_h &= \text{no. of districts sampled from stratum } h \\ N_h &= \text{total number of districts in stratum } h \end{aligned}$$

Notice that within stratum  $h$ ,  $\phi_{hi}$  does not depend on district  $i$ .

### **State Level estimates**

The total no. of students in grade  $l$ , giving a positive response to a question is estimated as

$$\hat{Y}_l = \sum_{h=1}^H \hat{Y}_{hl} \quad (7)$$

with

$$\hat{Y}_{hl} = \sum_{i=1}^{n_h} \sum_{r=1}^{m_{il}} w_{hilor}^s y_{ilor} \quad (8)$$

where, within grade  $l$ , for each district  $i$  in stratum  $h$ ,  $y_{ilor}$ , and  $m_{il}$  are as defined above.

The proportion of students in grade  $l$ , in the state, giving a positive response to a question is estimated as,

$$\hat{\bar{Y}}_l = \frac{1}{M_l} \sum_{h=1}^H \hat{Y}_{hl} \quad (9)$$

where,

$M_l$  =total number of students in grade  $l$  in state.

**Appendix F**  
**Standard Error Computation**

## Standard Error Computation for the Texas School Survey of Substance Use

The standard errors of the percentages were estimated via the SUDAAN software package. The variance estimation techniques in SUDAAN are specifically designed to address the complexity of the sample design in finite population sampling. The variance estimators generally available for these complex designs do not have closed form solutions and, therefore, require iterative approaches in computations that would yield solutions as close to the true value as possible. SUDAAN software package is available for this purpose and is gaining wide popularity in survey sampling applications.

In applying SUDAAN to the current survey which consisted of a multi-stage stratified sampling design, the input SAS data set requires the following re-coding of the stratification variable for strata 21 and 22 (due to certainty stratum 21 having only one district responding to survey):

```
if strata=22 then strata=21;
```

(Here: strata= stratum identifier) Next, the data set needs to be sorted as follows:

```
proc sort data=___;  
by strata distid q2 class;  
run;
```

Here, distid= district identifier, q2= grade identifier, class= classroom identifier.

The SUDAAN code needs to incorporate the following:

```
proc crosstab data=" " filetype=sas design=WOR;  
nest strata distid q2 class;
```

The specified design WOR uses Taylor series variance estimation methods<sup>1</sup> in computing standard errors of percentages in the multi-stage stratified sampling design of this survey.

---

<sup>1</sup> See SUDAAN User's Manual (Volume 1), page 3-4.
